

YARN TENSIOMETER

LH-605 YTM

EASY TO USE, ACCURATE HAND HELD YARN TENSIOMETER

The measurement of yarn tension is extremely important in all textile applications. The YTM is durable as well as very affordable; making it ideal for use in the production environment. It is easy to calibrate and available in 0-25g, 0-50g and 0-100g ranges.

The compact size and ease-of use of YTM make it ideal for measuring tension in hard-to-reach places that are normally difficult for larger tensiometers to access.

This accurate, hand-held Tensiometer gives the operator freedom to make necessary adjustments to the operation being checked. It is accurate within 2% (+½ g in the 25g unit).

ORDERING DETAILS

YTM-25	0 to 25 gram tensiometer
YTM-50	0 to 50 gram tensiometer
YTM-100	0 to 100 gram tensiometer
Dimension	11.3 x 3.9 x 3.3cm (4.5 x 1.5 x 1.3in)
Weight	113g (0.25lb)
